

Emergency Preparedness for People with Disabilities

No one wants to find themselves in an emergency. For people living with a disability, the challenges associated with a critical situation can be even more acute. How ready are you should you face an emergency? The key to a successful outcome often comes down to being prepared.

A recent Federal Emergency Management Agency (FEMA) survey found that nearly 60 percent of American adults have not practiced what to do in a disaster by participating in a disaster drill or preparedness exercise at work, school, or home in the past year. Only 39 percent of respondents have developed an emergency plan and discussed it with their household. *

Although you can't be ready for every possible scenario, a little research and preparation can make a big difference. This fact sheet includes links to some of the best

resources for planning ahead. From building evacuation tips and emergency kit details to planning documents and first responder resources, you'll find a wealth of information to get you started. Time spent preparing today will certainly result in peace of mind and a better plan for tomorrow.

Are You Prepared?

- Sign up for local text alerts and warnings and download weather apps to your phone.
- Develop an emergency communication plan for your family to stay in touch if family members are in different locations.
- Collect important documents and keep them in a safe place.
- Gather emergency supplies. Pack a “go bag” to evacuate quickly and have supplies in the home to be safe without water or power.

National Resource Center on Advancing Emergency Preparedness for Culturally Diverse Communities

<http://www.diversitypreparedness.org/>

The mission of the National Resource Center, a project of the Center for Public Health Readiness & Communication at the Drexel University School of Public Health, is to serve as a central clearinghouse of resources and an information exchange portal to facilitate communication, networking and collaboration to improve preparedness, build resilience and eliminate disparities for culturally diverse communities across all phases of an emergency.

No Person Left Behind—Oxygen: Respiratory Disaster Planning Information

<http://nopersonleftbehind.org/oxy/www/index.htm>

704 Homer Ave North

Lehigh Acres, Florida 33971-1142

Phone: 239-368-6846

Email: executivedirector@nopersonleftbehind.org

The mission of oxygen.NoPersonLeftBehind.org is to provide respiratory disaster information and planning guidelines to assist individuals with respiratory issues for travel, disaster evacuation or if needed stay in place during an emergency. Planning information covers respiratory breathing devices and ventilators, to include extra expendable supplies. The respiratory planning guide provides a checklist for individuals to check if they have, need to get, or not applicable. It also provides a place for fill in the blanks for respiratory DME Information, phone numbers and respiratory medicines of a disaster or emergency. The guide also provides information on when to check or replace expendable respiratory supplies, how often to provide preventive maintenance on your devices.

Healthcare Ready

Phone: 1-866-247-2694

Healthcare Ready has activated its free, interactive Rx Open map (<https://www.healthcareready.org/rxopen.>) to show open and closed pharmacies in the region affected by a natural disaster or other emergency situation. Citizens and first responders are encouraged to use this map as an initial resource, and to call their pharmacy to ensure their specific medication is in stock.

Healthcare Ready is an independent emergency response and relief organization established after Hurricane Katrina. Healthcare Ready, created by PhRMA, has been working with PhRMA companies, healthcare providers, transportation providers, federal, state, and local governments, and many others to identify critical needs in the regions affected by disasters. Team members work to help the pharmaceutical industry provide relief to people in need. Real-time updates can be found by following Healthcare Ready on Twitter at @HC_Ready. After a disaster, Healthcare Ready coordinates with officials at the U.S. Department of Homeland Security, FEMA, Health and Human Services, and other federal, state, and local agencies. Healthcare Ready helps citizens have ready access to medicines they need during and after a disaster.
