

Guam Disability Resources

Guam is the largest and southernmost of the Mariana Islands, and the largest island in Micronesia. Many, but not all, social welfare programs that are available in the 50 states and the District of Columbia are also available in the United States territories of American Samoa, Guam, the Northern Mariana Islands, Puerto Rico, and the U.S. Virgin Islands. Some programs are only available in certain territories and for some programs the territories receive funding based on different formulas or under different circumstances than do the states.
