Faith for ALL is a not-for-profit, non-denominational organization that starts with the basic premise that all human beings are created in the image of God and designed to be in relationship with Him. Because relationship with God is a matter of faith, people with disabilities should have equal access to both express and explore their faith of choice within the context of a community of their choice. Faith for ALL therefore accelerates congregational accessibility so people with disabilities and their families can have deeper access into the community life of a congregation.
