In 2017, with the help of Sail to Prevail, the New England Science & Sailing Foundation (NESS) launched its adaptive sailing program. NESS's adaptive sailing program brings the fun and therapeutic qualities of sailing to individuals with diverse needs. NESS's Independence 20 sailboat is a super stable boat and is outfitted with two bucket seats that can pivot from one side of the boat to the other. These seats are equipped with 5-point harnesses so when sailors are steering the boat or handling lines, they can feel secure out on the water.
