

Hemiplegia

Hemiplegia is the inability to move one's limbs on one side of the body and may be the result of stroke or cerebral palsy among other conditions.

Southfield, MI 48075

Phone: 313-663-7772

AHCF's mission is to find the cause(s) of AHC, develop effective treatments and ultimately find a cure, while providing support to the families and children with AHC by funding research to accomplish these goals. Secondly, they strive to promote proper diagnosis, educate health care professionals, the public and related organizations, encourage the worldwide exchange of information and advance the development of an international database of all AHC patients.

Children's Hemiplegia and Stroke Association
